Software Engineering Student

As a third-year software engineering student, I want to focus on learning Full Stack technologies. I am seeking an internship where I can apply my technical skills and knowledge to real-world projects. With experience in programming languages such as JavaScript, Java and a strong understanding of software development methodologies. I am confident in my ability to contribute to a dynamic and innovative team. I am open to learn more and new technologies to help me in development. My goal is to gain practical experience in software engineering and to develop the skills necessary to become a successful Senior.

Education

Arab Academy for Science and Technology and Maritime – Smart Village campus

software engineering major with minor in computer science

Certifications

- **Web Design Certification - FreeCodeCamp**
 - This certification is mainly about vanilla HTML5 and CSS
- **JavaScript Certification – FreeCodeCamp (in progress)**
 - This Certification is about all JS related topics
- **Front End Development Libraries – FreeCodeCamp (in progress)**
 - Finished Bootstrap Course (1/6)
 - Will finish more soon

Projects

- **Banking System**
 - I made an online banking system as a project for college using Java and JavaFX.
 - Demonstrated my knowledge in the creation of databases.
 - I have learned the basics of Object Oriented Programming through this project.
- **Cinema Reservation System**
 - I made this system as a project for college using MySQL database and my little knowledge in C#.
 - I have learned the basics in GUI Creation using C#
- **Space Tourism Website**
 - I made this project to demonstrate my ability in HTML5, CSS, and JavaScript
 - Learned basics of JS from this challenge

- ***Weather Web App***
 - I made a simple weather app to demonstrate my ability in JavaScript Fetching API'S
 - Demonstrated my ability in making animations for different events
- ***Simple Music Player***
 - I made this project as a demonstration for my ability to use audio data and complex CSS usages.
- ***Simple Palindrome Checker***
 - I made this project to demonstrate my ability of using and mutating arrays
- ***Random Advice Generator***
 - I made this project to demonstrate my ability of using API's and CSS

Mini Projects

- Survey Form
- QR Code Challenge from Frontend Mentor
- Dark colors to be used as a background
- Product preview card Challenge from Frontend Mentor
- Blog preview Card Challenge from Frontend Mentor
- A Tribute Page Challenge from FreeCodeCamp
- Social links Challenge from Frontend Mentor

Skills

- Basic C/C++
- Basic Java / JavaFX
- OOP
- HTML
- CSS
- JavaScript
- SQL and Databases
- Bootstrap
- Good Knowledge of software Requirements and specifications
- Good Knowledge of software Process and Life Cycle
- Microsoft Project
- Data Structures
- Basic Git/GitHub
- Basic Linux and Linux Commands
